Profile

Experienced Data Engineer with over 5 years of expertise in Python programming, data pipeline construction, and DevOps practices. Proven track record in mentoring teams and implementing CI/CD processes. Seeking to leverage my skills in Microsoft Fabric and Medallion Architecture to drive data engineering projects to success.

Experience

SENIOR FULL-STACK DEVELOPER - DATA ENGINEERING FOCUS | TECHWAVE SOLUTIONS | (2021–PRESENT)

· Led Python development projects, integrating Docker and CI/CD practices to enhance workflow efficiency. Mentored junior developers, fostering a culture of continuous learning. Initiated a shift towards data engineering principles, laying the groundwork for advanced data pipeline and ETL process implementation.

FULL-STACK DEVELOPER - PYTHON SPECIALIST | DIGITALFACTORY | (2018–2020)

· Developed and maintained Python-based applications, contributing to database management and optimization. Gained foundational experience in data engineering concepts, preparing for a transition towards specialized data engineering roles.

Education

MASTER'S DEGREE IN COMPUTER SCIENCE | INSTITUTION NAME | (YYYY–YYYY)

Skills & Abilities

.

- Python
- Data Engineering
- Microsoft Fabric
- Medallion Architecture
- Data Pipelines
- ETL
- DevOps

- CI/CD
- Team Mentoring
- Docker
